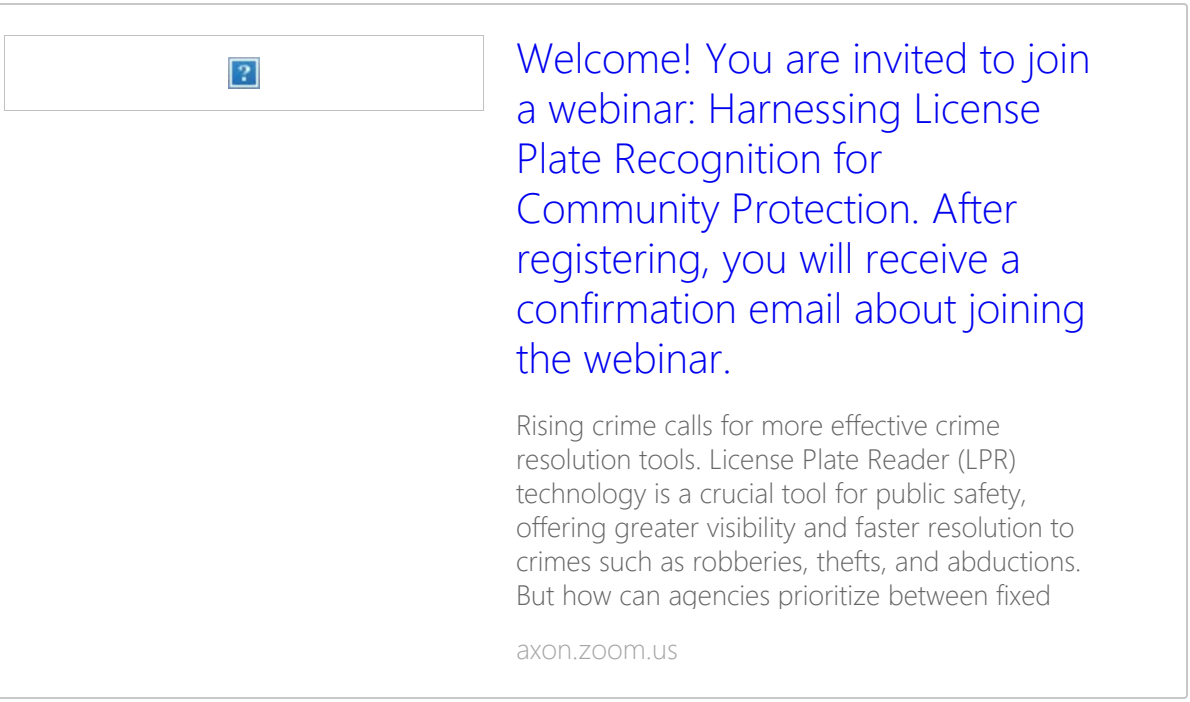
Not sure if everyone is getting these emails, but here's an upcoming webinar (Zoom) on Flock/Axon integration set for November 8, at 10:00 am, if you're interested. Should be beneficial.
Danny

Webinar Registration - Zoom



Welcome! You are invited to join a webinar: Harnessing License Plate Recognition for Community Protection. After registering, you will receive a confirmation email about joining the webinar.
Rising crime calls for more effective crime resolution tools. License Plate Reader (LPR) technology is a crucial tool for public safety, offering greater visibility and faster resolution to crimes such as robberies, thefts, and abductions. But how can agencies prioritize between fixed

Flock Safety and Axon

Hi there,

We're excited to unveil our latest enhancements to the **FlockOS® + Axon Fleet 3 integration**. As you drive your investigative pursuits, our tools come together to empower you like never before:

View Fleet 3 Images in FlockOS®:

See Axon's Fleet 3 images in Search, enhancing your capability to spot potential leads based on location.

Refined Searches with Vehicle Fingerprint®:

No plate? No problem. By applying Vehicle Fingerprint® machine learning to Fleet 3 images, you can discern finer details like Body, Make, Color, and Accessories, ensuring you get refined results every time.

Streamlined Evidence Management:

Reduce your administrative burden by directly uploading Flock's LPR images into Axon Evidence.

Join Our Webinar to Dive Deeper with Us:

We're hosting a special webinar where you can hear directly from a user about the groundbreaking benefits of this integration in speeding up case resolutions.
